Dear Hiring Team,

I am writing to express my keen interest in the Staff Engineer position within the Risk Engineering team at WEX. With my extensive experience in software engineering, particularly in developing and maintaining risk platforms, coupled with a passion for leveraging data and AI to solve complex problems, I am confident I possess the skills and experience to significantly contribute to your team and the modernization of WEX's risk technology ecosystem.

My background includes over 7 years of experience in software engineering at scale, with a strong focus on designing and implementing high-quality, performant, and efficient solutions. I have hands-on experience with languages such as Java, C#, Golang, and Python, employing TDD and BDD approaches to ensure code reliability and quality. My experience extends to cloud technologies, including AWS and Azure, and I have a solid understanding of data processing techniques, SQL, and database technologies.

In my previous roles, I have been deeply involved in the development and maintenance of risk platforms, including architecting solutions, implementing CI/CD automation, and proactively monitoring system health. I am adept at analyzing data to identify bottlenecks and opportunities for improvement and have a proven track record of mentoring peers and fostering a culture of continuous learning. My project, a Full Stack Music Sharing Website, showcases my ability to design

and implement complex systems from end to end.

I am particularly excited about the opportunity to contribute to WEX's initiative to create a modern, cloud-based technology ecosystem for risk management. My experience in designing and building systems with a focus on scalability, reliability, and security aligns perfectly with the goals of this initiative. Furthermore, my strong problem-solving skills, excellent communication skills, and passion for understanding and solving customer/business problems make me an ideal candidate to collaborate with partners and stakeholders and drive impactful solutions.

I am confident that my skills and experience make me an excellent fit for the Staff Engineer position. I am eager to learn more about this opportunity and discuss how I can contribute to WEX's success. Thank you for your time and consideration.

Sincerely,

Bernard Smith
